

QUALITY POLICY

The vision of SNF is to be the world's largest manufacturer of water soluble polymers. We strive to provide our customers with the most reliable source and broadest range of polymers and related services while maintaining the quality and price needed to meet their goals.

We are committed to implement and maintain quality management systems that support this vision and enhance customer satisfaction. To achieve our goal we will:

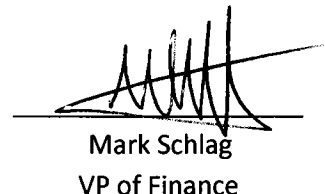

- Provide products and services which meet the requirements of our customers.
- Continually review the performance of our products and improve the effectiveness of our processes.
- Establish and regularly review our Quality Objectives.
- Improve communication to promote teamwork throughout all areas of the company to ensure the involvement and participation of all employees.
- Form long-term relationships with all business partners who are essential to the success of our business.
- Train all employees to fully understand and perform their duties and responsibilities. The growth of the company depends on the growth and professional development of our employees.
