

QUALITY POLICY

The vision of SNF is to be the world's largest manufacturer of water soluble polymers. We strive to provide our customers with the most reliable source and broadest range of products and related services while maintaining the quality and price needed to meet their goals.

We are committed to implement and maintain quality management systems that support this vision and enhance customer satisfaction.

Quality products and services which meet the requirements of our customers and all applicable regulatory and statutory requirements.

Understanding and communication of this policy are essential to its application throughout all SNF organizations.

Always ensure continual review of the suitability of this policy to the strategic direction of SNF, the effectiveness of our quality management systems, and the performance of our products, processes, and services.

Long-term relationships with all business partners are essential to the success of our business.

Improvement and regular review of our goals and objectives are part of our continual improvement efforts. These objectives shall be measurable, achievable, and support the vision of SNF.

Train all employees to fully understand and perform their duties and responsibilities.

Your contributions are critical to the success of SNF.
